10:00 am   BIBCO-at-Large

Presentation and demo- David Williamson (LC), David Bucknum (LC) and Gary Strawn (Northwestern)
The presenters have been developing applications to work with Voyager to:
1)   pair Romanized and vernacular fields in bib records by reordering the fields using a $6
2)   "read" Romanized fields in bib records and to provide paired fields in the vernacular using a transliteration utility
3)   using bib records as a source, read the romanized headings, search and find the authority, then add the vernacular form from the associated 880 as a reference in the authority.
They will focus on the technical possibilities and not on cataloging policy.

PCC/LC Coop activities--Carolyn Sturtevant (LC)
